

CHEMICO-BIOLOGICAL INTERACTIONS

CONTENTS

VOLUME 66 (1988)

Divalent cation requirements for mounting a respiratory burst in response to phorbol diesters by macrophages from SENCAR and C57BL/6 mice by J.G. Lewis and D.O. Adams (Durham, NC).....	1
Relationship between the covalent binding of <i>N</i> -acetoxy-2-acetylaminofluorene to DNA and a steroidal esterase activity in human mononuclear leukocytes by M. Lund-Pero, R.W. Pero and D.G. Miller (New York, NY and Lund, Sweden)....	13
UV-A induced DNA nicking activities of skin photosensitive drugs: phenothiazines, benzothiadiazines and afloqualone by H. Fujita and I. Matsuo (Kanagawa-ken, Japan).....	27
Carcinogenesis and nucleic acid alkylation by some oxygenated nitrosamines in rats and hamsters by W. Lijinsky, J.E. Saavedra and R.M. Kovatch (Frederick and Ijamsville, MD).....	37
Effects of administration of <i>N</i> -nitrosodialkylamines and <i>N</i> -nitrodiethylamine on hepatic UDP-glucuronosyltransferase activity in Wistar rats by H. Takanashi, H. Homma and M. Matsui (Tokyo, Japan).....	49
Cadmium-induced synthesis of metallothioneins in human lymphocytes and monocytes by T. Sone, S. Koizumi and M. Kimura (Kanagawa, Japan).....	61
Extracellular metabolites of 2-aminofluorene in cultures of rapid and slow acetylators rabbit hepatocytes as a model for urinary and biliary metabolism by C.A. McQueen, M.J. Miller, B.M. Way and G.M. Williams (Valhalla, NY).....	71
Synthesis and application of fluorescent labeled nucleotides to assay DNA damage by D.J. Kelman, K.T. Lilga and M. Sharma (Buffalo, NY).....	85
Further evidence for a biological role of anti-estrogen-binding sites in mediating the growth inhibitory action of diphenylmethane derivatives by A. Fargin, F. Bayard, J.C. Faye, M. Traore, M. Poirot, A. Klæbe and J.J. Perie (Toulouse, France).....	101
Effects of feminization of male F344 rats on induction of tumors and on nucleic acid alkylation by nitrosobis-(2-oxopropyl)amine by W. Lijinsky, B.J. Thomas and R.M. Kovatch (Frederick and Ijamsville, MD).....	111
Reactions of stereoisomeric and structurally related bay region diol epoxide derivatives of benz[<i>a</i>]anthracene with DNA. Conformations of non-covalent complexes and covalent carcinogen-DNA adducts by S.E. Carberry, M. Shahbaz, N.E. Geacintov and R.G. Harvey (New York, NY and Chicago, IL)	121
Dimethylsulfoxide elicited increase in cytochrome oxidase activity in rat liver mitochondria in vivo and in vitro by S.D. Desai, K.G. Chetty and D.S. Pradhan (Bombay, India).....	147
Microsomal metabolism of picene by K.L. Platt, P. Petrovic, A. Seidel, D. Beermann and F. Oesch (Mainz, F.R.G.)	157
Recovery of malondialdehyde in urine as a 2,4-dinitrophenylhydrazine derivative analyzed with high-performance liquid chromatography by T. Ekström, P. Garberg, B. Egestad and J. Högberg (Solna and Stockholm, Sweden)	177
Increased metallothionein gene expression in 5-AZA-2'-deoxycytidine-induced resistance to cadmium cytotoxicity by M.P. Waalke, M.S. Miller, M.J. Wilson, R.M. Bare and A.E. McDowell (Frederick, MD).....	189

Reduction of ferryl- and metmyoglobin to ferrous myoglobin by menadione-glutathione conjugate. Spectrophotometric studies under aerobic and anaerobic conditions by G. Buffinton, D. Mira, D. Galaris, P. Hochstein and E. Cadenas (Linköping, Sweden, Buenos Aires, Argentina and Low Angeles, CA).....	205
Induction of cytochrome <i>P</i> -450IA1 gene expression in human breast tumour cell lines by M. Pasanen, S. Stacey, A. Lykkesfeldt, P. Briand, R. Hines and H. Autrup (Copenhagen, Denmark and Omaha, NE).....	223
Reduction of ferrylmyoglobin to metmyoglobin by quinonoid compounds by G. Buffinton and E. Cadenas (Linköping, Sweden).....	233
Inhibition of lipid peroxidation by disulfiram and diethyldithiocarbamate does not prevent hepatotoxin-induced cell death in isolated rat hepatocytes. A study with allyl alcohol, <i>tert</i> -butyl hydroperoxide, diethyl maleate, bromoisovalerylurea and carbon tetrachloride by P. Dogterom, J.F. Nagelkerke, J. van Steveninck and G.J. Mulder (Leiden, The Netherlands).....	251
Comparison of the effects of carbon tetrachloride and of 2,2,7,8-tetrachlorodibenzo- <i>p</i> -dioxin on the disposition of linoleic acid in rat liver in vitro by P.W. Albro, J.T. Corbett, J.L. Schroeder and D. Harvan (Research Triangle Park, NC).....	267
Early alteration in liver of rats fed 2-fluoroenylacetamide investigated by L-ethionine probe by Z. Brada, S. Bulba, I. Hrstka and S. Pappatheodorou (Miami, FL).....	287
Subject Index Volume 66 (1988)	297
Author Index Volume 66 (1988).....	301
